

WORK

INTEGRATED LEARNING IN

Logistics, Trade & Transport

How our work integrated learning students can contribute to your organisation...

Global Logistics & Transport:

- Warehousing and distribution operations
- Key performance monitoring and reporting
- Import & Export administration
- Fleet control and scheduling
- Co-ordination of domestic and international logistics
- Client and service provider liaison
- Supply chain analysis

International Trade:

- Import/export functions including document preparation
- Investigating sources of supply and negotiating purchase agreements
- Liaison with export customers, suppliers and government agencies
- Market research
- Strategic planning functions (transport analysis, critical path analysis and inventory control)
- Conduct country risk analysis
- Finance of international trade, including foreign exchange risk

What employers have to say...

The programs “allow employers to view the capabilities of students, employ outstanding candidates who can then be further educated by the employer, with the possibility of employment being offered after the candidate completes their course. The whole logistics industry will be better off by assisting in the practical education of students”.

Account Manager

(Coles Myer Vic, Tas, SA)

LINFOX AUSTRALIA PTY LTD

“At Pacific Asia Express we have had the mutually beneficial opportunity of recruiting co-op candidates from Vic Uni for the last 5 years... [they] have all been outstanding in their performance and have gone on to greater heights in their chosen careers, which have been allied to the logistics industry. I will have no hesitation in recruiting future candidates from Victoria University to fill vacancies here as and when they arise”.

National Documentation Manager

PACIFIC ASIA EXPRESS

“VU students are extremely keen to learn, hard working and can provide a way of thinking sometimes difficult to find in the general employment market. From an employer’s perspective, it a great opportunity to assess the suitability of the student as a future star of the company and it’s refreshing to train staff that are not tainted by the culture of previous organisations”.

SEAWAY

Student testimonials...

“Co-op was a fantastic experience, a real taste of why I actually decided to study transport and logistics. I have learnt so much, not only about the logistics field and the way a large firm operates, but also about balancing a full time job with many responsibilities with the other aspects of my lifestyle.”

Mathew

BP AUSTRALIA

“The opportunity to undertake a year of professional employment was one that I jumped at. Co-op has given me the confidence and skills to progress to the next level. I have endured a steep and rewarding learning curve that no amount of study can give you. Having real responsibilities and targets to meet requires you to give your best at all times. I recommend the co-op year to all prospective employers and students”.

Ryan

FORD MOTOR COMPANY OF AUSTRALIA LIMITED

“Undertaking my co-op placement at ANL Container Line ...gave me the opportunity to put into practice what I’d learnt in the classroom, as well as teaching me invaluable workplace skills such as communicating with co-workers, clients and management alike. My computer ability, organisational and time management skills were sharpened, and consequently my confidence skyrocketed”.
