

Faculty Postgraduate Research Committees:

Faculty of Arts, Education & Human Development

Faculty of Business & Law

Faculty of Health, Engineering & Science

Each Faculty has a committee responsible for postgraduate research studies. The committees are known by slightly different names within the Faculty. These committees for the purpose of clarity will be referred to as the Faculty Postgraduate Research Committees (FPRC).

The Committees approve applications for Doctoral and Master by Research degree candidature, organise peer reviews, monitor student progress, deal with leave and other applications, develop guidelines and training programs and generally coordinate ways to support the student's research experience leading up to thesis assessment. They also develop and recommend to the Faculty Board of Studies and the University Postgraduate Research Committee policy matters relating to postgraduate research within the Faculty and the University. Membership of these committees often includes student representation. The following is a timetable of meeting dates of the FPRC for 2012:
