

## **Work Integrated Learning - Kosta**

My name is Kosta Olivontu and I am a client support officer.

The preparation program is to help you write your resume, career resume, and a cover letter.

We had a booklet given out on how to apply for jobs, how to write a cover letter and a resume. I spoke to the Work Integrated Learning coordinator and she told me exactly what to do. There's a coordinator for every department.

Work Integrated Learning isn't like work experience. It's like having a real job.

You actually, you're in the field doing what you have to do. I get a full-time salary.

I get paid per hour. So it's pretty good.
