

Work Integrated Learning – Nuni

My name is Nuni and I am the marketing officer at Parks Victoria.

I was born in Indonesia but moved to Germany when I was 11 months old. The University I went to in Germany was a school that had a relationship or partnership with Victoria University.

The course is really helpful in obtaining a job after finishing your studies, it's very hard to get a job nowadays without any experience what so ever.

I have learnt during my course to be more confident, I especially learnt to be a bit more assertive, you have to be out there in the real world to put whatever you learn during your studies, to put it in practice.

I just love Melbourne, I just love the culture here, it's one of the best decisions I made to come here.
