E. Scholarship Selection Procedures

Eligibility

All applications are assessed against the eligibility criteria for the scholarship scheme. Those applications deemed ineligible for a scholarship will not be processed any further and ineligible applicants will be notified of the result.

Due to increased competition in recent years applicants are requested to provide transcripts with actual marks whenever possible.

Ranking against the selection criteria

The Project Supervisor will rank eligible applications on the basis of academic merit, relevant research experience, publications, relevant work experience, referee reports and may identify applications which are not for further consideration (NFFC).

The Project Supervisor may contact an applicant directly for more detail regarding their application.

The Project Supervisor (and, if appropriate, a representative of the industry partner) may interview candidates in person or by tele- or video-conference.

Final Ranking

The Institute Deputy Director will determine a final ranking of applications, identifying the preferred application, a short reserve list and those not to be offered the Scholarship.

Appeals

Appeals can only be lodged against process issues and not against Institute Deputy Director decisions or ranking. Appeals against the outcome of scholarship applications must be made in writing to the Dean and Director, Research Training, Quality and Integrity within 14 days of the applicant being notified of the outcome. Applicants must explain the basis of their appeal and provide relevant documentation and evidence to support the appeal. The appeals process will be carried out by an independent Senior University Officer who is not a staff member who has been part of the process reviewing applications for the Scholarship. The Senior University Officer appointed will consider the appeal and advise the applicant of their decision in writing.
