

Schooling years  
**16-18**  
Senior school

**I can:**

Think in abstract terms – including thinking about possibilities and the long term

Form my own ethics

**I am learning how to:**

Think about philosophical concerns

Use analytical skills to deepen understanding and solve problems

Apply what I know to a diversity of contexts

Demonstrate responsibility and empathy

**Help me learn by:**

Reinforcing relevance – especially in cross-disciplinary applications of knowledge

Making time and space for deep learning and higher-order thinking

Giving me opportunities to work in teams

Building my ability to recognise when I'm wrong and figure out the correct alternative

Giving me increased responsibility, such as the chance to mentor or tutor younger students
