PRACTICAL LEARNING

All our courses are designed to fully prepare you for work, and taught by industry-connected teachers who are experts in the field. Hands-on learning, industry-sourced projects and high-tech simulation labs will shape you into a stand-out graduate.

KINDRED STUDIOS

Our contemporary music program is taught at this unique industry-based facility in Yarraville. Kindred offers dedicated music rehearsal, performance and recording spaces with a wide range of professional audio equipment available for student use that is shared with creative arts industry professionals.

TV, RADIO, VISUAL ART & DESIGN STUDIOS

Our media production precinct at our Footscray Park Campus includes a multi-camera television studio with a green screen for visual effects, a radio studio and more. We have purpose-built visual art studios at Footscray Nicholson Campus and Hatch Studio at MetroWest, a design studio offering an agency-like work environment for graphic design students.

OFFSET

You could participate in this multiplatform creative arts journal which is developed by third year students each year. It includes artwork, photography, poetry, music and film from national and international contributors.
“DURING MY COURSE I INTERNE D AT A VIDEO PRODUCTION COMPANY.”

“VU truly is a university of opportunity. It’s up to you to make the most of it.

During my course I interned at a video production company, where I put my editing and videography knowledge into practice. My involvement in VU’s Offset creative arts journal was not only enjoyable, but also helped me build skills and networks.

I used VU’s career advice to help with job-hunting and résumé-enhancing, and chased my dream job as social media videographer at SBS in Sydney where I’m now working.”

Bachelor of Screen Media
THE VU WAY

We are one of only six universities in Australia to offer both TAFE and university courses, meaning you can choose the level of study that best suits you.

Our courses are designed with close industry consultation, and you’ll have opportunities for engaging work placements and internships to give you a head start in your future workplace. But above all, the VU Way is about what you bring to the University: joining our rich and diverse community will reward you with unique experiences in the classroom and beyond.

VU BLOCK MODEL

In 2018 VU was the first Australian university to introduce the VU Block Model. This new approach to learning is focused on making your transition into university easier, your chances of study success greater, and giving you the skills to succeed when you enter the workforce.

AT VU WE KNOW THERE’S MORE THAN ONE WAY TO SUCCEED AT LEARNING, SO WE PROVIDE MULTIPLE WAYS TO ACHIEVE A WORLD-CLASS EDUCATION AND EXCITING CAREER.
VU’S BLOCK MODEL MEANS

1. **YOU’LL SETTLE INTO UNI FASTER**
   Complete one subject every four weeks (including all assessments) and build confidence in your studies from day one.

2. **YOU’LL FEEL SUPPORTED**
   Learn in smaller classes and have more one-on-one time with your teachers.

3. **YOU’LL FEEL LESS STRESSED**
   You’ll only have to focus on one unit at a time. At other universities, you will be expected to complete multiple units at once.

GET FUTURE FOCUSED WITH BLENDED LEARNING

Study at Victoria University Polytechnic, VU’s TAFE division, and you’ll learn with our multi-award winning Blended Learning model. Blended Learning is flexible, industry-based and focused on preparing you for the modern workplace. It replaces paper-based theory tuition with a combination of user-friendly online learning and face-to-face workshops. Online components mean you can learn anytime, anywhere – and then you’ll refine your skills through practical learning and on-the-job work placements.

PATHWAYS

Course ‘pathways’ offer an easy transition between courses at different levels, so that you can start with a certificate and progress right through to postgraduate study – in many cases gaining credits along the way. Students starting in Higher Education degrees can also add to their portfolio of skills with practical, hands-on training through our TAFE programs.
