MINORS

Advanced Sport Science SMISSC

This minor is available to students completing sport and exercise related courses. The minor enables students to develop knowledge and skills in sports science disciplines outside of their specialisation in exercise and sport science. It offers studies in sport biomechanics, functional kinesiology, exercise interventions and sport physiology. The minor also provides for the development of a major study, with completion of a further four units of study in these areas.

Health (Sport Science Minor) SMIHEA

Being healthy is important to all of us. Our health is influenced by a range of individual and behavioural factors as well as physical and social environments. Studying health will help you to develop skills and knowledge to make decisions about your own health, inform others, and also to recognise the importance of health in society. You will also become aware of how to support and promote healthy behaviours of others. The minor in Health provides you with an understanding of the individual and societal influences on health and human development. You will study areas covering adolescent health, sexuality and relationships, social bases of health and health promotion and policy.
