Further information regarding placement unit:

AHE3120: Exercise Science Career Development is a career placement within the sport and recreation industry. This unit is designed as the first part of a Capstone project taken by students in their final year of their program. It is designed to consolidate the students' undergraduate training via reflective practice. This unit introduces students to professional roles and offers perspectives on the roles of other team members in the professional setting. Assessment in this unit requires the use of theoretical knowledge from the discipline units completed during the degree along with critical reflection on an individual career goals and aspirations. This unit is designed to support students to obtain positive career outcomes by following a career development model. It will equip them to be proactive and strategic in career planning, aware of the variety of exercise and sport science career outcomes and to develop self-understanding to enable them to target their career actions.

Placement: 140 hours

Sport Coaching SMASCO

The Sport Coaching major is made up of eight units that focus on the development of students coaching knowledge and skills enabling them to work at all levels of sport participation from community, school, state, national, international and professional sport settings. Students will develop a sophisticated understanding of coaching practice through studies ranging from community-based coaching to advanced units that focus on talent identification and athlete/coach development. By completing this major, students will have both a deep understanding of coaching theory and a range of practical coaching skills highly sought after in the sport workforce in roles such as sport coach and sport development officer/manager.

Sport Performance SMASPP

The Sport Performance major is made up of eight units that are organised around a theme of analysing and improving performance, health and participation in sport and physical activity contexts. Students will develop their understanding of performance through studies in sport sciences including biomechanics, kinesiology, physiology, sociology, and motor control. By completing this major, students are prepared for progressing on to honours/postgraduate study in areas informed by the biological sciences.
