Bachelor of Education (P-12)

THE

NEW WAY

TO DO UNI

**VICTORIA
UNIVERSITY**

WHERE CAN VU TAKE YOU IN EDUCATION?

Make a difference in the lives of young people by launching your career in education.

The education sector in Australia and internationally is growing, and the demand for qualified early childhood, primary and secondary school teachers has never been greater.

VU is one of the few universities in Australia to offer a Bachelor of Education (P-12), which means you can teach at any school level. The course includes 98 days (686 hours) of practical placement – well above the 80 days required to register as a Victorian teacher – so you're prepared to take on the class room.

Study at VU and discover why employers nation-wide rate our graduates second highest for employability*.

CAREER

EDUCATION

A qualification in education can offer a wide range of career choices.

^Completion of this course qualifies graduates for VIT teacher registration.

PRACTICAL LEARNING

All our courses are designed to fully prepare you for work, and taught by industry-connected teachers who are experts in the field. Hands-on learning with lots of industry placement experience will shape you into a stand-out graduate.

LEARNING IN THE WORKPLACE

In a Bachelor of Education (P-12) you will undertake practical placements from your second year of study, ensuring you are classroom-confident when you start work. Bachelor of Early Childhood students gain experience with young children in kindergartens and Bachelor of Education Studies students learn through community-based placements. With up to 700 hours of supervised teaching practice throughout our courses, you will be well-equipped for future teaching roles.

LEARNING OVERSEAS

You'll have the opportunity to study and take up placements in international settings. You could travel to destinations including China, Malaysia, India, Timor-Leste and Indonesia. VU is the only university in Australia that offers a study tour to Reggio Emilia in Italy to learn about the unique early childhood education system founded in the city.

“I UNDERTOOK WORK PLACEMENTS

IN FIVE DIFFERENT SCHOOLS DURING MY STUDIES.”

“When my Year 12 results didn’t pan out, I discovered VU’s Diploma of Education Studies, with a pathway that put me straight into second year of a bachelor degree.

My extensive placements were vital in helping me shape my practice as a teacher. My final placement school is where I’m working now as a teacher, Year 9 coordinator and adviser.”

Bachelor of Education (P-12)

THE NEW WAY TO DO UNI

AT VU WE KNOW THERE'S MORE THAN ONE WAY TO SUCCEED AT LEARNING, SO WE PROVIDE MULTIPLE WAYS TO ACHIEVE A WORLD-CLASS EDUCATION AND EXCITING CAREER.

We are one of only six universities in Australia to offer both TAFE and university courses, meaning you can choose the level of study that best suits you.

Our courses are designed with close industry consultation, and you'll have opportunities for engaging work placements and internships to give you a head start in your future workplace. But above all, VU's New Way To Do Uni is about putting you and your success at the centre of everything we do. Our richly diverse and supportive community will reward you with unique experiences in the classroom and beyond.

VU BLOCK MODEL

In 2018 VU was the first Australian university to introduce the VU Block Model. This new approach to learning is focused on making your transition into university easier, your chances of study success greater, and giving you the skills to succeed when you enter the workforce.

WHY IS VU'S BLOCK MODEL BETTER FOR ME?

1

YOU'LL FOCUS ON ONE SUBJECT AT A TIME

Complete one subject every four weeks before moving on to the next. At other universities, you need to complete multiple subjects at once, while at VU you'll be fully focused on each subject.

2

YOU'LL BUILD YOUR CONFIDENCE

The progression of subjects in the Block Model will give you early feedback and success, and build confidence in your studies from day one.

3

YOU'LL FEEL SUPPORTED

Smaller classes mean you have more one-on-one time with your teachers and classmates. And with a timetable that can allow flexibility outside of uni, you can work, and spend time with family, friends and pursue other interests.

GET FUTURE FOCUSED WITH BLENDED LEARNING

Study at Victoria University Polytechnic, VU's TAFE division, and you'll learn with our multi-award winning Blended Learning model. Blended Learning is flexible, industry-based and focused on preparing you for the modern workplace. It replaces paper-based theory tuition with a combination of user-friendly online learning and face-to-face workshops. Online components mean you can learn anytime, anywhere – and then you'll refine your skills through practical learning and on-the-job work placements.

PATHWAYS

Course 'pathways' offer an easy transition between courses at different levels, so that you can start with a certificate and progress right through to postgraduate study – in many cases gaining credits along the way. Students starting in Higher Education degrees can also add to their portfolio of skills with practical, hands-on training through our TAFE programs.
