WHAT'S SPECIAL ABOUT SCIENCE AT VU

BACHELOR OF SCIENCE
(SCIENCE-SPECIALISATION – VTAC CODE 40691)

The Bachelor of Science (Specialisation) course is industry focussed and aims to produce work-ready graduates for careers in industry, government and education. The course offers specialisations in three disciplines; biotechnology, chemistry and ecology & environmental management. Students can choose to specialise in one or two of these science disciplines. This is a three year course with a common first year and a choice of sub-specialisations in the latter two years that gives students the flexibility to customise their learning. Sub-specialisations can be chosen from health, engineering, science, arts, business and law.

Admission Requirements
Prerequisites: Units 3 & 4-a study score of at least 20 in English (any) and in mathematics (any). Middle band: Completing biology, chemistry, physics or specialist mathematics = an aggregate 3 points higher per study, a maximum of 9 points.

SPECIALISATIONS
• Biotechnology
• Chemistry
• Ecology and Environmental Management

SCIENCE SUB-SPECIALISATIONS
• Analytical Chemistry
• Cell Biology/Microbiology
• Community Science
• Computing
• Environmental Science
• Environmental Assessment & Analysis
• Forensic Chemistry
• Mathematics
• Molecular Biology
• Statistics
