PRACTICAL LEARNING

All our courses are designed to fully prepare you for work, and taught by industry-connected teachers who are experts in the field. Hands-on learning, industry-sourced projects and work placements will shape you into a stand-out graduate.

INDUSTRY EXPERTS

Our students learn from industry-expert teaching staff and have access to high profile adjunct professors including Alan Kohler AM, financial journalist; Hon. Dr Craig Emerson, former politician; and Ian James, Managing Director of Mushroom Music.

CO-OPERATIVE EDUCATION

As a Bachelor of Business student, you can gain a year of paid, full-time employment towards the end of your degree, with a preparation program during the second year of study to ensure you are ready to enter the workforce.

BUSINESS INTEGRATED LEARNING

Our Business Integrated Learning program recognises industry-based experiences such as relevant project work, part-time employment, a holiday job or even voluntary work while studying. Placement partners have included ANL Container Line, GM Holden, Toll and Wallenius Wilhelmsen.

“MY COURSE ALLOWED ME TO HIT THE GROUND RUNNING.”

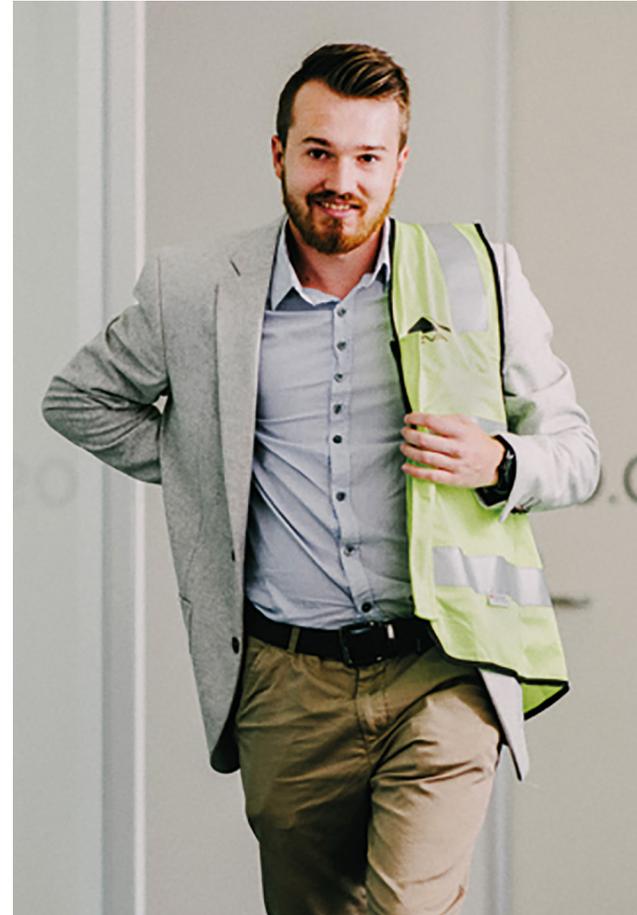

“I chose Victoria University due to the industry connections, great support staff, and prime location. While studying, I undertook a three-year paid internship at one of Australia’s major automotive companies – GM Holden. This saw me work on numerous multi-million dollar projects.

My course allowed me to hit the ground running. I had all the required knowledge and skills to understand warehousing and logistics terminology.

I am now employed as a National Account Analyst with a global transport and supply chain company, CEVA Logistics.”

Bachelor of Business

THE NEW WAY TO DO UNI

AT VU WE KNOW THERE'S MORE THAN ONE WAY TO SUCCEED AT LEARNING, SO WE PROVIDE MULTIPLE WAYS TO ACHIEVE A WORLD-CLASS EDUCATION AND EXCITING CAREER.

We are one of only six universities in Australia to offer both TAFE and university courses, meaning you can choose the level of study that best suits you.

Our courses are designed with close industry consultation, and you'll have opportunities for engaging work placements and internships to give you a head start in your future workplace. But above all, VU's New Way To Do Uni is about putting you and your success at the centre of everything we do. Our richly diverse and supportive community will reward you with unique experiences in the classroom and beyond.

VU BLOCK MODEL

In 2018 VU was the first Australian university to introduce the VU Block Model. This new approach to learning is focused on making your transition into university easier, your chances of study success greater, and giving you the skills to succeed when you enter the workforce.

WHY IS VU'S BLOCK MODEL BETTER FOR ME?

1

YOU'LL FOCUS ON ONE SUBJECT AT A TIME

Complete one subject every four weeks before moving on to the next. At other universities, you need to complete multiple subjects at once, while at VU you'll be fully focused on each subject.

2

YOU'LL BUILD YOUR CONFIDENCE

The progression of subjects in the Block Model will give you early feedback and success, and build confidence in your studies from day one.

3

YOU'LL FEEL SUPPORTED

Smaller classes mean you have more one-on-one time with your teachers and classmates. And with a timetable that can allow flexibility outside of uni, you can work, and spend time with family, friends and pursue other interests.

GET FUTURE FOCUSED WITH BLENDED LEARNING

Study at Victoria University Polytechnic, VU's TAFE division, and you'll learn with our multi-award winning Blended Learning model. Blended Learning is flexible, industry-based and focused on preparing you for the modern workplace. It replaces paper-based theory tuition with a combination of user-friendly online learning and face-to-face workshops. Online components mean you can learn anytime, anywhere – and then you'll refine your skills through practical learning and on-the-job work placements.

PATHWAYS

Course 'pathways' offer an easy transition between courses at different levels, so that you can start with a certificate and progress right through to postgraduate study – in many cases gaining credits along the way. Students starting in Higher Education degrees can also add to their portfolio of skills with practical, hands-on training through our TAFE programs.
