ABOUT THIS PROGRAM
Study our specialised Study Abroad Certificate program and you will gain in-depth knowledge about international trade theories and practice.

Australia has one of the most open economies in the world where one in five jobs exist because of international trade activities. Our program is a mix of economic theory and practical business process applications and will expose you to international trade considerations, including:

- Free Trade Agreements — The Australia New Zealand FTA is the World Trade Organization’s reference standard. Australia is part of the TPP, the world’s largest FTA
- Customs practices — Australia is currently the world leader in customs risk management procedures and e-commerce for export and import clearance
- Quarantine and market access — Import/export quarantine in Australia is the strictest in the world
- Delivery and payment risks — Incoterms and payment methods.

Experience aspects of international trade through simulated work environments, and authentic industry materials to prepare you for a successful career.

CAREER OPPORTUNITIES
You will develop the skills suitable for a wide range of roles that can lead into management positions. These include export/import administrator, documentation/shipping officer, export/import analyst, international salesperson and international procurement officer.

PROGRAM STRUCTURE
To receive the Certificate, you must successfully complete four units of study (courses) in one semester.

Semester 1
- BEO1252: International Business Context
