VICTORIA UNIVERSITY LIBRARY: STATEMENT OF INTENT

Victoria University (VU) Library is an integral part of the University's ecosystem and contributes to its moral purpose of transformative and enriching education and research. The Library does this by empowering VU students and staff to discover and access the world's knowledge, and by providing quality Library learning spaces and services that contribute to the student experience beyond the formal learning experience.

[VU Library](#) has a unique role within the University, providing specific and quality information facilities, services and resources to benefit the learning, teaching and research experiences of VU students and staff.

More than ever, VU Library will apply its agility and expertise while providing value to the University as it moves through its educational transformation, [the VU Way](#):

Discovery & transformation	Opportunity	Success & value	Engagement & support
Enable future-ready graduates through mastery of digital literacies	Work collaboratively to simplify digital systems and interfaces to improve the user experience	Design educational supports fit for the student lifecycle	Provide high quality, blended and flexible educational supports
Maximise research visibility and support data integration	Actively adapt services, systems and resources as the University community's requirements change	Advocate for fair, affordable access to learning and research resources	Support scholarly communication, research impact and data management
Integrate content and learning resources within the flexible and interactive learning ecosystem to make it easy to find and use content	Leverage expertise in licensing and copyright in effective stewardship of content	Assess digital trends in order to respond to changes	Digitally enable collaborative learning and service environments

Frances O'Neil AALIA
Associate University Librarian
Education & Research Services

Adrian Gallagher
