COURSE TITLE

BMER - Master of Business (Enterprise Resource Planning Systems)
Faculty of Business & Law
School of Management and Information Systems

Exit Points
Graduate Diploma in Enterprise Resource Planning Systems (8 approved subjects)
Graduate Certificate in Enterprise Resource Planning Systems (4 approved subjects)

BRIEF DESCRIPTION OF COURSE

Victoria University offers a number of postgraduate courses in Enterprise Resource Planning (ERP) Systems. SAP is used as the model ERP system in these courses. As a member of the SAP University Alliance we are able to integrate SAP into our ERP-related subjects.

- Master of Business in ERP Systems

  The Masters course is offered on a full-time basis over three semesters or part-time equivalent. Students must complete 12 subjects to graduate.

  **Six core subjects:**
  - Enterprise Resource Planning Systems
  - Business Process Engineering
  - Supply Chain and Logistics Management
  - Organisation Change Management
  - Enterprise Resource Planning Systems Implementation
  - Strategic Use of Enterprise Resource Planning Systems

  **Two (2) specialisation subjects from:**
  - Management of Information Technology
  - Enterprise E-Commerce
  - One elective subject

  **Plus four electives:**
  - Applications Programming Techniques (SAP’s ABAP programming language)
  - Transaction Programming Techniques (Advanced ABAP programming)
  - Client Server Technology (Install/Configure SAP)
  - ERP Systems Administration
  - Enterprise Project Systems (SAP’s PS module)
  - Planning & Control through ERP Systems (SAP’s PP module)
  - Human Resource Information Systems (SAP’s HR module)
  - Computerised Accounting in an ERP System (SAP’s FI module)
  - Enterprise Applications Integration
  - Business Intelligence Systems (SAP BW)
**Graduate Diploma in ERP Systems**

The Graduate Diploma is offered on a full-time basis over two semesters or part-time equivalent. Students must complete 8 subjects to graduate.

**Six core subjects:**
- Enterprise Resource Planning Systems
- Business Process Engineering
- Supply Chain and Logistics Management
- Organisation Change Management
- Enterprise E-Commerce
- Enterprise Resource Planning Systems Implementation

**Plus two electives:**
- Applications Programming Techniques (SAP’s ABAP programming language)
- Transaction Programming Techniques (Advanced ABAP programming)
- Client Server Technology (Install/Configure SAP)
- Planning & Control through ERP Systems (SAP’s PP module)
- Human Resource Information Systems (SAP’s HR module)
- Computerised Accounting in an ERP System (SAP’s FI module)
- Business Intelligence Systems (SAP BW)

**MODE OF DELIVERY OF COURSE**

Modes of delivery:

1. Normal (all)
2. Burst (Potentially all dependent on numbers)
3. Online (Four ERP subjects in 2007)
4. Hybrid (Normal/Online customisable)

**CREDIT PROPOSED FOR VARIOUS ADF COURSES AND CATEGORIES OF ADF PERSONNEL**

Credit would be assigned according to University Pathways and RPL policies where appropriate and/or assessed on an individual basis.
This VU course is a unique flagship course for the School of Management and Information Systems and is currently offered internationally in a number of locations. Pathways from VU to other courses would be limited external to the University but there is close integration with other Faculty of Business & Law courses, namely:

Master of Business in Information Systems/ERP Systems and Master in Business Administration.
