No boundaries for women and girls in sport and physical activity
For too long women in sport in Australia have been under-represented, underpaid, and underappreciated!

And still, look at women’s sporting achievements.

I welcome this roadmap for change and encourage people working in and with the sports sector to get involved.

Imagine the potential when there are truly no boundaries.

Senator the Hon. Marise Payne, Minister for Women

The future for women’s sport looks bright.

The Federal Government is committed to ensuring Australian female athletes, at all levels, have access to the best training initiatives.

Continued support of grassroots programs has led to a surge in participation across codes. Whether it’s netball or rugby, cricket or AFLW – pathways are being created to ensure young passionate athletes can follow their dreams, and in doing so, serve as inspiration for others.

Senator the Hon Richard Colbeck, Minister for Sport

A bold new vision for women and girls in sport and physical activity

Our vision is that there are no boundaries for women and girls in sport and physical activity.

Our goal is to achieve this by 2025.

But what does it look like and how will we know when we have made it?

Here we set out what we are striving for, actions to take and measures of success.

Key members of the sport sector, governments and industry are onboard.

Please join us.

About Australian Women in Sport Advisory Group

The Australian Women in Sport Advisory Group (AWISAG) was established in 2019 to strengthen industry collaboration and organisational commitment to achieving gender equality for women and girls in sport in Australia.

Members include

Clare Hanlon, Chair
Professor Victoria University

Mark Anderson
CEO, Collingwood Football Club

Peter Nash
Director, Westpac

Luke Sayers, AM
CEO, Price Waterhouse Coopers

Susan Alberti, AC
Susan Alberti Medical Research Foundation

Julie Bissinella
Program Director, Male Champions of Change, Sport

Kate Palmer, AM
Former CEO, Sport Australia

Why does investing in women in sport matter?

Harnessing the full potential of women in sport will create positive social and economic change, with benefits for individuals, communities, sports organisations, and the broader sport industry. This includes opportunities to expand audience bases, increase viewership and engage different communities in sport.

**Individual**

Participation in sport increases the physical and mental health of women and girls. For example, As many as 60% of girls say that sport helps them to forget their worries, and studies show young girls benefit from having an activity that allows them to switch off from the pressures of school, friends and family. Additional benefits of team sports include the development of leadership skills such as teamwork, resilience, learning how to manage setbacks, and generating a better night’s sleep.

**Community**

Sport is a powerful catalyst for social change: it can help shape community attitudes and perspectives and plays a crucial role in advancing gender equality and challenging gender stereotypes. Sport teaches that women and girls can be strong, powerful and competitive, and paints these traits as healthy and normal, helping to redefine gender norms. Additionally, strong, powerful female role models increase the interest and participation of women in sport. Research also shows that promoting women’s engagement in sport as players and spectators, coaches and trainers, strengthens community connection and social cohesion while also leading to a decrease in poor and anti-social behaviours at sporting events.

**Organisation and Industry**

The evidence-base for gender equality is clear: improved productivity and economic growth, increased organisational performance, enhanced ability to attract and retain talent, and improved organisational reputation. Women are also responsible for 70-80% of purchasing decisions and for sport organisations, this provides an opportunity to grow revenue bases from sponsorships, advertising, ticket sales and membership fees. 74% of women’s sports fans agree that companies involved in sponsoring women’s sport gain in appeal with the audience.

**National and International**

Sport contributes to an estimated A$86 billion in economic, health and educational benefits annually for Australia with a return on investment of A$7 for every A$1 spent. The sports sector employs over 220,000 people, which represents 1.9 per cent of the Australian workforce. A further 1.8 million committed volunteers donate 158 million hours to sport each year. Increasing women and girls’ representation and involvement in, access and contribution to this previously male-dominated sector will have significant will have significant flow on effects for our economy.

We will know there are no boundaries and we have been successful when:

- Australia is a global leader in empowering women and girls through sport and physical activity
- Women and girls from all backgrounds have a lifelong love and engagement in sport and physical activity
- Women and girls are inspired by, feel welcome, and have equality of opportunity to participate, lead and work in all aspects of sport and physical activity
- Women and men play in similar competitions for equal pay and prize money
- Infrastructure is in place for women and men to participate in the sport they choose
- Women who play and lead in sport are equally valued, recognised and celebrated
- Australia is a desired destination for international investment in women participating in sport
- Quotas and industry standards are no longer needed for women in sport and physical activity

An intersectional approach is recommended which considers but is not limited to women from CALD, Aboriginal and Torres Strait Islander, LGBTIQ, low SES backgrounds, and women with disabilities.

More detail on the plan to achieve these aspirations can be found at https://www.vu.edu.au/awisag
### How will we track progress and measure success?

<table>
<thead>
<tr>
<th>Focus area</th>
<th>Progress indicators</th>
<th>Measures to track</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Leadership</strong></td>
<td>1. Is there gender balance in leadership, recruitment, graduates, promotion and overall across the organisation?</td>
<td>% of women overall/total, key management personnel, other execs/general managers, senior managers, other managers, non-managers</td>
</tr>
<tr>
<td></td>
<td>2. Do the conditions and culture enable women to thrive in sport organisations?</td>
<td>% of women board directors</td>
</tr>
<tr>
<td></td>
<td>3. Is there a flexible and inclusive employment experience?</td>
<td>% of women high-performance staff at elite level</td>
</tr>
<tr>
<td></td>
<td></td>
<td>% of women coaching staff at elite level</td>
</tr>
<tr>
<td></td>
<td></td>
<td>% of women officials at elite level</td>
</tr>
<tr>
<td></td>
<td></td>
<td>% of women employees and/or participants that report an inclusive experience in the organisation (or similar wording)</td>

**MALE CHAMPIONS OF CHANGE SPORT**

Male Champions of Change Sport, working with McKinsey & Company, has developed a framework for driving progress on gender equality in sport, including pay equality. The group reported progress against these measures for the first time in 2020.

The AWISAG is working with Federal, State and Territory Governments to align these measures across key members of the sports ecosystem. These are baseline measures, other measures more specific to members of the wider ecosystem may be required.

Local, national and international sports organisations are invited to adopt or adapt these measures to help accelerate the pace of change.

Find out more at: https://malechampionofchange.com/groups/sport/
What role can you play?

Gender equality in sport benefits women and girls, our business, our communities, and our country.

Please think about the contribution you can make, and take action.

☐ Does your strategic plan include a focus on women and girls in sport?

☐ Do you have targets for gender equality in all management levels of your organisation?

☐ Are you investing equally to support gender equality in sport through your infrastructure, policies, resources, sponsorship and funding decisions?

☐ Are you building your knowledge and fairly representing the unique qualities of women as athletes and generally in sport?

☐ Are you actively tracking progress to close the gap on gender inequality in sport?

☐ Do tenders/contract applications encourage your partners and suppliers to strive for gender equality?

☐ Are you working to achieve pay equality in sport?

☐ Do you ensure women and men play in similar competitions for equal prize money?

☐ Do you have a plan to attract, develop and retain women as leaders in sport?

☐ Do you encourage your stakeholders to watch women and girls play sport?
