VU is leading an education revolution. The New Way To Do Uni is creative, practical, informed and connected; so you get the most out of not only your education, but your whole study experience.

REIGNITE YOUR CAREER

Whether you’re entering the next stage – or a whole new phase – of your career, our postgraduate courses in teaching and education offer career-focused learning for the leaders of tomorrow.

Our partnerships with industry and world-class research both inform our curriculum and provide extensive networking and placement opportunities; while our lecturers are professional experts, who are ready to share current practices with you.

We are all about practical learning that leads to real career outcomes, and supporting you throughout your study journey.

STUDY YOUR WAY

If you’re busy juggling work or family commitments, we can help you achieve success on your terms.

With the option of full and part-time studies, and in some cases the opportunity to receive credits for previous qualifications, we make education accessible for everyone.

You may even complete your studies sooner as a range of units are offered in summer and winter semesters.

RESEARCH EXCELLENCE

VU offers world-class research opportunities. Our researchers work across multidisciplinary research focus areas to develop new technologies and solve real world problems.

Research is supported by our partnerships with industry and our research institutes and centres to provide beneficial outcomes to organisations, governments and communities. VU is ranked world standard in the education research area.

MASTERS BY RESEARCH

In addition to our postdoctoral research (PhD), VU offers Masters by Research degrees across our Institute for Sustainable Industries & Liveable Cities, and Institute for Health & Sport. These vary in length from one to two years and have different prerequisites and outcomes depending on your individual goals.

“During my degree I gained placements in several schools, engaging with kids from different backgrounds, ages and abilities. These experiences motivated me to pursue a teaching career. Now, in my Master of Teaching (Secondary) I’ve completed my first school placement and it’s further solidified my desire to teach. It’s also given me amazing insight into what being a teacher entails and boosted both my confidence and my CV.”

Gene Vocale
Master of Teaching (Secondary), Bachelor of Physical Education and Sport Science

“With an undergraduate degree in education, I decided to complete my Master of Education at Victoria University to strengthen my knowledge and enhance my career.”

“The course has encouraged me to learn more, understand contemporary issues in education, be more innovative and think critically about new ideas.”

Yanri Ramdhan
Master of Education

“As an employer of teaching graduates, I know the practical training VU offers can’t be beaten — while other institutions are still teaching traditional methods.”

“I’d been teaching for a long time and was ready to progress my career. People in the course came from all walks of life and all around the world, which offered different and inspiring perspectives.

With a young family and a full-time job, I needed flexibility while I studied — and VU delivered. I was able to complete my masters in 18 months taking up summer and winter schools, and classes after work. I became acting principal soon after completing the course, and am now the principal.”
