Approval for a late commencement must be sought in writing by the applicant, providing full details of the reasons for the request, before 31 March 2016.
Eligibility
Applications are assessed against the eligibility criteria for each of the scholarship schemes or awards that are available. Only those applications that are deemed eligible and have the formal support of an appropriately registered supervisor will be forwarded to College committees for further assessment and ranking.

Due to increased competition in recent years applicants are requested to provide transcripts with actual marks whenever possible. These marks may be used to distinguish between applicants of high academic merit if necessary.

Academic merit and research alignment
Colleges rank applications on the basis of academic merit resulting in a College Order of Merit list.

Only First Class Honours or equivalent applicants are ranked for the APA.
Only First Class Honours applicants will be ranked for the Vice Chancellor’s scholarships.
First Class Honours is not an eligibility requirement for the VU scholarship or the College Centenary Scholarships.

Students with the following qualifications are automatically classed as First Class Honours applicants:

- Australian and New Zealand Bachelors Degree with First Class Honours
- Australian and New Zealand Research Masters Preliminary formally graded as First Class Honours
- Australian and New Zealand Research Masters Degree formally graded as First Class Honours

Where an applicant does not hold one of the above qualifications, but the College believes that the applicant has qualifications and/or research experience equivalent to First Class Honours, an assessment of equivalence is determined. The following are examples of qualifications requiring assessment:

- Bachelors Degree with 2nd class honours as the highest qualification
- Research Masters Preliminary without a formal First Class Honours grade
- Research Masters Degree without a formal First Class Honours grade
- Coursework Masters Degree
- Graduate Diploma
- All overseas qualifications (except New Zealand)
- Other non-standard H1 Bachelors qualifications

A University Ranking Committee reviews the College Order of Merit lists to determine a University-wide Order of Merit list to identify those applicants that are successful. All available scholarships are allocated.

An assessment is made of successful applicants for the Vice Chancellor’s Graduate Research Awards and the College Centenary Postgraduate Scholarships.

The final ranking and scholarship/award allocation is completed in the second week of December.

All applicants will receive written notification of the result of their scholarship application after mid December 2015.

Successful applicants in receipt of an offer from another university, but who wish to take up their offer with Victoria University, may request, within no more five than working days of receiving their offer from Victoria University, in writing that Victoria University consider their alternative offer and make a counter-offer. Within no more than five working days, Victoria University will respond in writing to the successful applicant with its decision and offer, if applicable, a counter-offer. Successful applicants with a counter-offer from Victoria University must communicate, in writing, their intention to take up the counter-offer within five working days of receiving the counter-offer. Counter-offers from Victoria University will be considered. Academic merit and available funding will impact the number of counter offers that can be made to successful applicants.

Appeals
Appeals can only be lodged against process issues and not against Committee decisions or ranking. Appeals against the outcome of scholarship applications must be made in writing to the Chair, Scholarship Ranking Committee within 14 days of the applicant being notified of the outcome. Applicants must explain the basis of their appeal and provide relevant documentation and evidence to support the appeal. The appeals process will be carried out by an independent Senior University Officer who is not a member of any College or University Scholarship Ranking Committee that has considered the scholarship applications in
a particular year. The Senior University Officer appointed will consider the appeal and advise the applicant of their decision in writing.
