H. Scholarship Selection Procedures

Eligibility

Applications are assessed against the eligibility criteria for each of the scholarship schemes or awards that are available. A recommendation of which applications are ineligible will be sent to the Discipline Ranking Panel. The Discipline Ranking Panel will make the final decision as to which applications are ineligible.

Due to increased competition in recent years applicants are requested to provide transcripts with actual marks whenever possible. These marks may be used to distinguish between applicants of high academic merit if necessary.

Determining first class honours

Students with the following qualifications are automatically classed as First Class Honours applicants:

- *Australian and New Zealand Bachelor's Degree with First Class Honours*
- *Australian and New Zealand Research Masters Preliminary formally graded as First Class Honours*
- *Australian and New Zealand Research Masters Degree formally graded as First Class Honours*

Where an applicant does not hold one of the above qualifications, but the Research Institute believes that the applicant has qualifications and/or research experience equivalent to First Class Honours, an assessment of equivalence is determined. The following are examples of qualifications requiring assessment:

- *Bachelors Degree with 2nd class honours as the highest qualification*
- *Research Masters Preliminary without a formal First Class Honours grade*
- *Research Masters Degree without a formal First Class Honours grade*
- *Coursework Masters Degree*
- *Graduate Diploma*
- *All overseas qualifications (except New Zealand)*
- *Other non-standard H1 Bachelors qualifications*

Academic merit and likelihood of completing in a timely fashion

Discipline Ranking Committees rank applications on the basis of academic merit, relevant research experience, relevant research publications or creative works, relevant work experience, strategic alignment and referee reports. This ranking results in a Discipline Order of Merit list. Only those applications that are deemed eligible and have provided all required supporting documentation will be considered for inclusion in the Order of Merit list.

The University Ranking Committee reviews the Discipline Order of Merit lists to determine a University-wide Order of Merit list to identify those applicants that are successful. All available scholarships are allocated. An assessment is made of successful applicants for the Vice Chancellor's Graduate Research Awards.

The final ranking and scholarship/award allocation is completed in early December. All applicants will receive written notification of the result of their scholarship application by mid-December 2020.

Appeals

Appeals can only be lodged against process issues and not against Committee decisions or ranking. Appeals against the outcome of scholarship applications must be made in writing to the Chair, University Scholarship Ranking Committee within 14 days of the applicant being notified of the

outcome. Applicants must explain the basis of their appeal and provide relevant documentation and evidence to support the appeal. The appeals process will be carried out by an independent Senior University Officer who is not a member of any Discipline Ranking Committee or University Scholarship Ranking Committee that has considered the scholarship applications in a particular year. The Senior University Officer appointed will consider the appeal and advise the applicant of their decision in writing.
